

[Join Scentsy!!! Now is your chance to become a Scentsy Consultant!](#)

Hey everyone!

So, I wanted to write a post about joining Scentsy. Obviously, I think it is a great opportunity. I love it! I want to share it with you. If you think that you may want to join Scentsy, this info should be helpful.

Let me tell you about why I joined Scentsy in 2012.

My husband and I had been looking for other ways to make income from home. He had a good paying job that he didn't like and I worked part time at various jobs and substitute teaching. We didn't have kids at the time but I wanted something that I could do from home and stay with the kids we planned to have. We even had an online bridal shop at the time. Honestly, my husband did most of the work on that. My cousin introduced me to Scentsy.

We thought about it and decided to join Scentsy. The products were great and we had heard of some people that were making a very significant income from their Scentsy businesses. We jumped in. We had my launch party, had a booth at a home and garden show and went to our first Scentsy convention in my first few months. My husband helped and supported me from day one.

Now let me tell you about some things I've learned about Scentsy since I joined that have made me so glad that I became a Scentsy consultant.

As an active Scentsy consultant, I also meet and interact with consultants from many other direct sales companies. I've learned about a lot of other companies and I feel that Scentsy has many advantages that make being a consultant easy. Don't get me wrong, I don't mean to talk bad about any other company. I really believe that you can succeed with many direct sales companies as long as you believe in the product and don't give up. I have just found that there are many things that I personally find advantageous about Scentsy.

First of all, it is a consumable product with an affordable price. I know there are other companies that also fit that description but it is one great thing about Scentsy. I have many customers who are addicted and they come back month after month to get more Scentsy bars, etc. I also like that it is very easy to get free shipping. If a party or individual order is over \$200

then shipping is free. I have bought from other direct sales companies when every single person at the party had to pay shipping. Obviously free shipping is better.

I also LOVE that I don't have to make promises/claims about the improvements my product will bring. I'm not promising weight loss, better appearance, better health, etc. I know many products do really help with these issues, but I also know that results may vary and the individual using the product has to use them correctly and often make lifestyle changes. With my product, you can test them before you buy (smell them) and when you start using them they have instant results. I also have no problems telling people that Scentsy products are better than anything else they are using. Obviously, that is an opinion, but it's easy enough for you to smell for yourself. My customers always tell me that Scentsy smells better and lasts longer than any other options they have tried.

Scentsy is constantly coming out with new products and Scents. That makes it easy for me to make additional income. Customers love seeing and smelling what is new. We have a new Scent and Warmer of the month every month. We add many new products and Scents twice a year when the catalog is updated. We also have special promotions several times a year. All of these new products generate a lot of customer excitement and sales.

Don't forget about the trips! In my Scentsy business, I have earned free trips to the Bahamas, Charleston SC and Cancun. I also earned a cruise 2 years ago and trip to Punta Cana Dominican Republic this summer but I wasn't able to take those trips because of the birth of my first son and the coming birth of my second son. I can't go to Punta Cana because of the possibility of the Zika virus. I was able to trade for a free trip to the Scentsy convention in Las Vegas last time and this summer I will go to the Scentsy convention in Kansas City instead of Punta Cana.

Now let me tell you where my business is now.

I'm still loving it. I have so many great friends on my team and in my customer base. I love the relationships. We have a 2 year old son who really charms the customers and we are expecting our second son in September. My husband now works at home with me. He left his job after 17 years and now we work the Scentsy business together. He has always helped me but now it's full time. The business is constantly growing. Many customers refer friends and family to me and they all love the products.

There are many ways to be a Scentsy consultant. Don't feel like you have to take my path. Honestly, I didn't know that's how my path would go. Many people join Scentsy and simply buy the products for themselves. Then they get paid off of thier own addiction. Some simply sell to a few friends and family and some go gangbusters. However you want to do it, I can help. My husband will also help. We are committed to being a good support for our team. If you want to join, you can click [HERE](#). If you have questions or concerns, please contact me. My number is 520-981-5251. By the way, I have team members all over the country. We can phone, text, email, FB message, etc. It's easy these days. Also, I'm fluent in Spanish as well.

Oh yeah, I forgot to mention the cost and starter kit. In the United States, it costs \$99.00 to join. You get a starter kit that includes the following. NOTE, THE CONTENTS OF THE KIT MAY VARY. HOWEVER, IT WILL BE A COMPARABLE SET OF PRODUCTS AND SUPPLIES.
