This limited-edition assortment is a one-of-a-kind gem. The Crystal Collection features five new Scentsy Bar fragrances

inspired by the positive attributes of crystals! Through the liveliness and allure of these exclusive fragrances, and even the vivid colors of our wax, the *Crystal Wax Collection* expresses in scent what we all desire in our world, to experience the good, the uplifting, the positive. What better time for optimism than now?

Amethyst the crystal is believed by some to subdue negative thoughts, calm, protect and more. **Amethyst** the fragrance expresses this in a lovely blend of lavender petals, chamomile and tonka bean.

Citrine the crystal is thought by many to promote positivity, bestow self-confidence and more. **Citrine** the fragrance reflects this in a stirring mix of sweet orange, pineapple nectar and vanilla.

Green Calcite the crystal is believed by some to encourage emotional balance, self-acceptance and more. **Green Calcite** the fragrance mirrors this in a blend of bergamot, jasmine and white woods.

Lapis Lazuli the crystal is thought to impart truth, honesty, healing and more. **Lapis Lazuli** the fragrance expresses this in sea salt air, California lemon and beach lily.

Rose Quartz the crystal is known for encouraging

unconditional love, inner peace and more. **Rose Quartz** the fragrance reflects this in a union of coconut cream, Moroccan rose and sandalwood.
