

## [Scentsy Go is coming soon!!!](#)

I just learned about the Scentsy Go and I am soooo excited. OMG!!! This thing is awesome.

So last week I went to Scentsy Family Reunion 2017. Scentsy does not have annual conventions, we have Scentsy Family Reunions and they are awesome. I'll tell more about that in another post.

I have to say that the Scentsy Go is the thing we learned about that I am most excited about.

Scentsy Go is a portable, cordless fragrance system that will allow you to take Scentsy fragrance anywhere.

### Scentsy Go

It is cordless and rechargeable. You can charge it with the included USB cord. The internal lithium battery lasts for up to 40 hours of use.

Enjoy the full seven-color LED light display, or adjust to pause on the color of your choice.

The Scentsy Go is 5.5" tall and about the size of a can of soda.

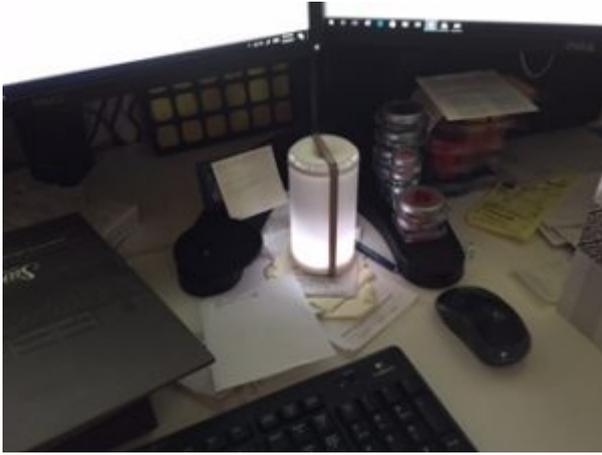

With the Scentsy Go, you have instant fragrance. An internal fan blows air through the Scentsy Pods, filling any small space with fragrance in seconds.

The Scent is provided by Scentsy Pods filled with no-spill fragrance beads. Each Scentsy Pod provides up to 120 hours of signature Scentsy aroma. The Pods are available in two packs that include the same fragrance. You can use one or two Pods at a time. Use two if you have a larger space or you simply want stronger fragrance.

## **Where will you go with your Scentsy Go?**

Ok, so what will you do with your Scentsy Go. I think they are great for the workplace. Some employers won't let you have a Scentsy warmer. You can take your Scentsy Go to the office. You could also use one in a bathroom where you may not have a convenient place for a Scentsy Warmer. Coffee tables and end tables are also a great place for a Scentsy Go. Basically, anywhere that you can't plug in a Scentsy Warmer. Gym Lockers, book shelves, vehicles, closets, restaurants, coffee shops and more. The possibilities are endless.

The Scentsy Go will be available for purchase starting September 1st 2017. Let me know if you are interested!!!
