

## Scentsy plug ins, night light and mini warmers.

Hey everybody, So this is just a blog post to clarify something. I hear from my customers and I know that there is a lot of confusion about this topic. Scentsy plug ins, night lights and mini warmers, what are they?

Warmer

Believe Mini

### Chasing Fireflies

#### Mini Warmer

Believe it or not, they are all the same thing. They are currently called Mini warmers. I have a hard time remembering myself. Scentsy has changed the name of these warmers twice. They used to be called plug in warmers, then they were called night light warmers, now they are called mini warmers. I'm talking about the ones that don't have a cord. They plug directly into the wall, similar to a night light.

I'm not sure about the reason for the name change. They didn't involve me in that decision :). However, I think they changed the name to mini warmers because they know have the option to us a table top base on them. If you use the table top base, they don't have the "night like" appearance. They are simply a "mini warmer".

I like the look of a mini warmer with table top base. They are adorable and perfect for small spaces.

Whatever you call them, they are great warmers and the good news is that Scentsy bars smell amazing in any warmer. If you are looking for a Scentsy Plug In or Scentsy Night Light, remember, they are called Mini Warmers now. [CLICK HERE](#) to browse all Scentsy Warmers.
