

Scentsy Travel Tins.

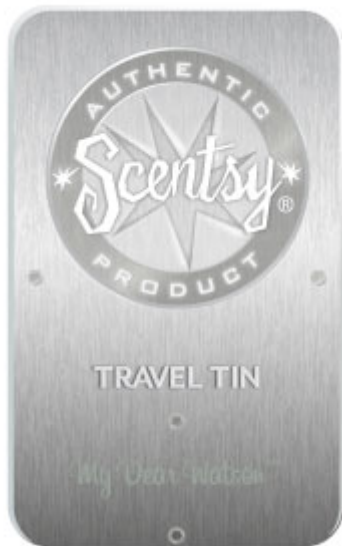

Scentsy Travel Tins aren't just for hotel rooms. Have you ever used one? Travel tins are small metal boxes (similar to an breath mint box). They have a sliding lid that you can open at various increments. That allows you to control the fragrance. They don't need any electricity or warming. They simply smell great.

Like the name implies, travel tins are a great option when you travel. Sometimes hotel rooms don't smell the best and you can use a travel tin to bring Scentsy with you. They are smaller than a deck of cards so packing is no problem. They can also be used in a bathroom where you may not have a handy plug to use a Scentsy Warmer. My husband used one at his office and it lasted for months. He doesn't need it anymore because he works at home with me running our Scentsy business!!!

Scentsy Travel Tins are a great option for bringing your favorite Scentsy fragrance anywhere. They are a great value at only \$5.00 each. We have 25 of our most popular fragrances available.

Travel Tin available fragrances.
